

Instructions to prepare and upload the final paper

Authors of accepted papers must prepare and upload the final version of their manuscript before **May 20, 2020**.

Regarding the preparation of the final paper, authors are requested to improve their manuscript using the corresponding comments and suggestions from the reviewers.

Your final paper must comply with the IEEE rules for style by using the corresponding and updated version of the IEEE template for conference proceedings. The IEEE Manuscript Templates for Conference Proceedings in Microsoft Word and LaTeX format are available at [IEEE Manuscript Templates for Conference Proceedings](#). Before creating the PDF file of your manuscript, include the appropriate *copyright clearance code notice* on the bottom of the first page, according to the guidelines at the end of the instructions.

Please use [PDF eXpress PLUS](#) to generate the PDF file of the final manuscript. First time users should do the following:

1. Select the New Users
2. Enter the following:
 - a. **48519XP** for the Conference ID
 - b. Your email address
 - c. A password
3. Continue to enter information as prompted.

An Online confirmation will be displayed and an email confirmation will be sent verifying your account setup.

Previous users of PDF eXpress Plus need to follow the above steps, but should enter the same password that was used for previous conferences. Verify that your contact information is valid.

When your final paper is ready and compliant to be uploaded, log in into the EMC Europe 2020 conference system ([ConfTool](#)), select “Your Submissions”, click on “Full Paper” and fill in all requested information.

Final papers might be subject of minor edits to make them completely IEEEExplore compatible, for adding pagination and the IEEE copyright clearance code. The authors will be requested by email to approve this camera-ready version of their final papers.

EMC Europe 2020

International Symposium on Electromagnetic Compatibility

September 7-11, 2020 | Rome, Italy

The papers will be automatically checked for plagiarism using the **IEEE CrossCheck portal**. All the papers with a moderate or high risk of suffering from plagiarism will be examined individually to reach a decision regarding the possibility of unethical behavior. Those articles in which plagiarism is detected will be automatically rejected.

Final papers compliant with the previously described requirements will be submitted for publication in the **IEEE Xplore®** database, one of the most comprehensive interdisciplinary engineering databases in the world.

Therefore, for every paper, the electronic **IEEE Copyright Form** needs to be signed when the final paper is submitted.

Please note that IEEE reserves the right to exclude a submission from distribution after the conference, including exclusion from IEEE Xplore®, if the submission does not meet IEEE standards or if it is not presented at the conference. Articles excluded from further distribution shall be archived by IEEE but shall not be indexed or appear on IEEE Xplore®.

In order to have the paper included in the conference program, it is mandatory that at least one author for each accepted paper is fully registered (as a Regular or as a Student participant). The registration fee allows any author to submit a maximum of two papers.

Covid-19 situation: EMC Europe 2020 is still scheduled to be held as planned. Given the current health situation, the registrations have not been opened yet and the **advanced registration deadline will be postponed** as changes in the conference schedule may be needed. Please check frequently the conference website for updates.

In summary, authors of accepted papers are requested to:

- upload the final version of their manuscript before **May 20, 2020**
- stay tuned on updates on registration in order to register by the deadline that will be defined soon!
